What we have to say

“Our focused range of services is aimed at medium to large privately held businesses and companies listed on the stock market, which includes Swiss companies as well as international groups. Thanks to our relationship with Grant Thornton partners in over 100 countries, we can offer tailored services across borders.

The compact size of our team guarantees a high partner involvement. We only accept assignments which can be completed in an efficient and timely manner to high quality. We refuse to take on any assignments which incur a conflict of interest. I make a point of not only striving for short term results, but also consider the long term consequences of our work.

To guarantee the competence of our staff, we place high value on intern evaluations as well as the further education and training of our specialised personnel. I am particularly proud that we won the title of “Top Employer of Switzerland” in 2008 and again in 2009 and 2010.“
